Full UK Driving Licence

■ INTERESTS

Skiing (lifelong) · Surfing ·
Climbing · Running (London
Marathon) · Cycling · Piano &
Guitar · Chess

■ PROFILE

Lifelong skier, comfortable across all terrain, with fifteen years behind a camera and a real feel for how a video comes together. In 2024 I started a TikTok from nothing and grew it to 89,000 followers in around seven months, running it like an engineering project: posting daily, reading the analytics and keeping what worked. I edit across Premiere Pro, Photoshop, DaVinci Resolve and CapCut, shoot on an iPhone, and I am finishing an MSc in Advanced Materials Science on top of a renewable energy engineering degree, so I understand a product built by engineers for skiers. Early in my career, quick to pick things up, and happiest outdoors and around people.

■ EDUCATION & AWARDS

MSc Advanced Materials Science

09/2025 – 09/2026

University College London

- Research project: fluorine free superhydrophobic nanocomposite coatings for high performance outdoor textiles.
- Key modules: Advanced Materials Characterisation, Advanced Materials Processing, Microstructural Control in Advanced Materials.

BEng Renewable Energy Engineering

09/2022 – 07/2025

University of Exeter · 2:1

- Dissertation (1st): “Redox Flow Batteries in Coupling Renewable Energy Sources”, involving external stakeholder interviews, technical analysis and project planning.
- Achieved a 1st in the field trip module; presented proposals for recycling wind farm blades to industry partners Nadara and ReBlade, and turned the trip into a self shot and edited hiking vlog.
- Relevant modules: Engineering Mechanics, Electrical Systems, Data Signals & Systems, Energy Storage, Thermodynamics, Fluid Mechanics, Project Management, Applied Computing, Applied Mathematics.

Student Representative

09/2025 – 09/2026

University College London

- Represent student views in departmental meetings, relaying course feedback and helping the department identify and address concerns.

■ EXPERIENCE

Social Media & Content

2024 – Present

@jacksontigerb (TikTok) · self started

- Grew the account from zero to 89,000 followers in around seven months, with videos passing a million views and 2.5 million likes across the account.
- Ran every part of it alone: ideas, filming, editing, captions, posting and reading the analytics afterwards, the same loop a brand channel runs, just smaller.
- Built the audience around skiing and an active life, learning which trends to ride, which to skip, and that consistency beats polish.

■ EXPERIENCE (CONTINUED)

Visiting Research Associate

08/2026 - 11/2026

Curtin University · Perth, Australia

- Studying photocatalytic water splitting for clean hydrogen, a placement I secured through a speculative application to the group on my own initiative.
- Responsible for lab experimentation, presenting findings to the research group and contributing toward a possible publication.

Founder & Bike Mechanic

2020 - Present

Brocklebikes · Windsor

- Started a bike repair business at sixteen and completed 495+ repairs, self taught from scratch, owning each job from diagnosis through to customer handover.
- Ran the customer side throughout: enquiries, quotes and handovers, staying friendly and calm when jobs stacked up.

■ ADDITIONAL EXPERIENCE

Run Club Founder & President

01/2024 - 06/2024

Falmouth Running Society

Founded and led a university running club, growing it to 200+ followers and weekly sessions of up to 25 runners in a single semester, the offline version of building an audience.

Digital Hub Student Ambassador

09/2024 - 06/2025

University of Exeter

Provided technical troubleshooting to up to 100 students per day in the library's IT department, calm and quick under pressure.

Barista / Front of House

2023 - 2026

Drury 188-189 · London
Castle Beach Café · Falmouth

Fast, accurate service across two cafe roles, working directly with customers and staying composed when it was busy.

Saturday Office Assistant

2026 - Present

Frank Harris & Co · London

Supporting a sales and lettings team with client outreach, scheduling and office admin, keeping track of moving parts.
